

Fertility Physicians of Northern California Founder Dr. David Adamson Presents Endowment for ASRM Patient and Public Education Website

ASRM has received an endowment to support its new patient and public education website – Reproductive Facts – from Dr. David Adamson, founder of Fertility Physicians of Northern California (FPNC).

San Jose, CA October 27, 2010 -- On October 24, 2010, at the opening ceremony of the annual meeting of the American Society for Reproductive Medicine (ASRM) in Denver, CO, ASRM officials announced that Dr. David Adamson and his wife Rosemary Adamson, in part through Fertility Physicians of Northern California, have given an exclusive endowment to support in perpetuity the ASRM Patient and Public Education website, www.reproductivefacts.org.

Dr. and Rosemary Adamson and Fertility Physicians of Northern California recognize the many contributions of ASRM to reproductive medicine over 7 decades and are grateful for their relationship with ASRM. They chose to give this endowment due to the clear benefits it will provide to patients, the public, ASRM members and all reproductive medicine professionals.

“We have a longstanding commitment to patient education, especially with regards to reproductive health” stated Dr. Adamson. “We are pleased to be able to support the ASRM’s commitment to education through this endowment.”

The gift to ASRM is made in part through Fertility Physicians of Northern California (FPNC), founded by Dr. Adamson in 1984, and furthers the educational goals of FPNC by supporting in perpetuity the electronic platform for ASRM’s patient and public education website.

Fertility Physicians of Northern California (FPNC), founded by Dr. Adamson, shares ASRM’s mission to provide patients and the public with timely, trustworthy information. FPNC offers free, live educational events on reproductive topics such as “The Truth About Biological Clocks” and “Beyond the Birds and the Bees: Expert Advice on Conception” as well as a variety of classes and programs focused on mind-body approaches for patients undergoing fertility treatment.

About Fertility Physicians of Northern California

Founded in 1984, Fertility Physicians of Northern California (FPNC) offers the full range of medical solutions patients need to start a family, from simple drug therapy to advanced procedures such as in vitro fertilization and pre-implantation genetic screening. From private offices in San Jose and Palo Alto (CA) they have helped thousands of people become parents. FPNC physicians are board certified specialists in reproductive endocrinology, infertility and reproductive surgery, providing the most advanced training and education in the treatment of infertility, endometriosis, miscarriage and other reproductive disorders.
